

**FIRST PLACE PV PITS**  
INCLUDES GPH SAFETY FEATURE &  
FOAM PIT DRAINAGE INSERT

*Everything Track & Field*

**ONLY FIRST PLACE® POLE VAULT PITS  
INCLUDE THIS IMPORTANT  
SAFETY FEATURE!!**

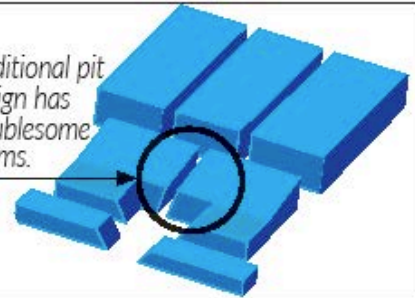

**PATENTED GPH DESIGN**

*Designed by pole vaulters for pole vaulters!*

One-piece center unit eliminates the usual troublesome seams directly behind the plant box, reducing the risk of injury.

Traditional pit design has troublesome seams.

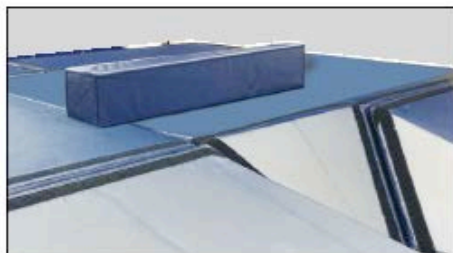

**GREG HULL**

Kiss the Sky Pole Vault Camps were fortunate to receive the first pit utilizing the GPH Technology. It performed flawlessly and exactly as stated. The seams behind the box, where the majority of vaulters run through and land, have been eliminated, therefore reducing the chance of injury! With thousands of jumps between 5' – 18', nothing but positive response and a complete endorsement of the product.

**Greg Hull**, *Coach of Two Olympic Pole Vault Gold Medalists*

**FOAM PIT DRAINAGE  
INSERTS** come standard  
on all **First Place Pole  
Vault and High Jump Pits.**
