Flexcushion makes almost every stretch better!

I love the Flexcushion, my coaches love the Flexcushion, and my athletes and clients love the Flexcushion.

Flexcushion makes almost every stretch better. You have to get one and try it!

Benny Vaughn

ATC, LAT, LMT, NCTMB, CSCS

USA Track and Field sports medicine staff

Flexcushion provides a perfect match with instructions for stretching!

Flexcushion allows my professional athletes and my amateur adult athletes to experience more gains from stretching sessions of shorter duration!

Dr. Yusuke Nakayama

As a seat cushion!

Our athletes use the Flexcushion not only for stretching but also as a seat cushion to prevent back pain / tightness. Flexcushion naturally keeps your pelvis upright and in a good athletic position.
